l'evoluzione della tradizione evolution of tradition

Da più di 60 anni nel mercato delle scale, sgabelli e assi da stiro, i prodotti FRAMAR sono riusciti a coniugare qualità, affidabilità e sicurezza, arrivando ad essere un marchio di riferimento del settore, con una presenza importante sia nella grande distribuzione sia in quella tradizionale. Il marchio dell'elefante alato, disegnato da Armando Testa negli anni '70, è sinonimo di robustezza e leggerezza. Questi due aspetti contrastanti sono coniugati nei nostri prodotti grazie all'esperienza e alla passione con cui vengono realizzati. Dal 1962 il marchio FRAMAR lavora costruendo intorno ai suoi prodotti una storia di successo, fatta di continua ricerca e di "made in Italy", sinonimo di stile, di valore, guadagnando nel tempo il gradimento e la fiducia dei consumatori.

Since more than 60 years in the market of ladders, step stools and ironing boards, FRAMAR's products have been able to combine quality, reliability and safety, thus becoming products of reference in their field, now largely present both in large-scale retail as well as in traditional trade. The brand depicting a winged elephant, conceived by Armando Testa in the 70's, is the synonym of toughness and lightness. these two contrasting aspects are combined in our products thanks to the experience and passion with which they are made. As of 1962 FRAMAR works to create a history of success with its products, made by its constant research and its "made in Italy" made of style and value, thus gaining consumer's satisfaction and trust through time.

nasce il marchio FRAMAR, composto da una scala e una asse da stiro stilizzata che reggono il mondo: da allora queste categorie rappresentano la priorità della marca

brand FRAMAR is created, made by the device of a ladder and a stylized ironing board which hold the world: from that moment on, these categories represent the priority of the brand

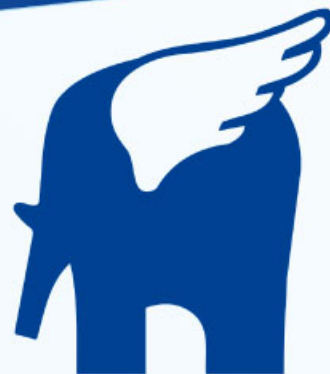

1962

nascono le scale in acciaio con pianetto in faggio e l'altalena scomponibile "ketty"

steel ladders with beech top and the decomposable swing "ketty" are created

1968

Armando Testa crea il marchio dell'elefantino alato e realizza la prima di una serie di campagne pubblicitarie rivolte al consumatore finale

Armando Testa creates the brand of the winged little elephant and the first of a series of advertising campaigns aimed at the final consumer

1970

lancio di "piuma", prima scala in alluminio

year of the launch of "piuma", the first aluminium ladder

1974

nascono le assi da stiro con piano in lamiera stampata (prima era di legno) e lo sgabello "tuttacciaio"

the ironing boards with printed iron plate top (previously they were made of wood) and the step stool "tuttacciaio" are created

1979

nasce lo sgabello in acciaio "major" e il primo asse cromato "vapocash"

the step stool "major" and the first chromed ironing board "vapocash" are created

1983

nasce la scala in alluminio "europiuma"

the aluminium ladder "europiuma" is created

1997

il posizionamento del marchio FRAMAR si rinnova completamente con una comunicazione istituzionale e di prodotto e con un nuovo packaging

FRAMAR's brand positioning is completely updated through an institutional and product communication as well as new packaging

2005

FRAMAR entra a far parte del Gruppo JUMBO

FRAMAR is acquired by JUMBO Group
